

RENEWABLE ENERGY DISCOUNT

Who is eligible for the discount?

This discount is all about sustainability. It is targeted specifically at companies in the renewable energy sector looking to deploy professional plant design and factory layout software. It offers a special deal on the MPDS4 software, as well as offering a significant discount on support and maintenance services for up to five (5) years, allowing you to take advantage of CAD Schroer's expertise and regular product updates.

What does it involve?

The Renewable Energy Discount will apply to your chosen MPDS4 software package and breaks down as follows:

Software	35 %
Hotline Support & Software Maintenance (On up to 5 consecutive years initially ordered. Minimum order: 2 years)	35 %

What are the prerequisites?

In order to qualify for the discount, companies must be part of the renewable energy sector and meet the following criteria:

- Use MPDS4 to design, plan or document alternative energy plants or factories. This includes the following sectors:
 - Biogas and Biomass
 - "Power-to-Gas"
 - Hydro Power
 - Solar Power
 - Wind Power
 - Geothermal
 - Wave and Tidal Energy
- Conclude a software support and maintenance agreement for at least two (2) years, at the discounted rate
